DigestiveHealth⁺

DIETARY SUPPLEMENT

Enzymes + Probiotics + Prebiotics + Herbs

Promotes complete
digestion and immunity
for optimal gut health.*

VegetarianCapsules

Stock #1020
Directions: Take one capsule twice daily with meals.

More and more people are finding that digestive health is important.

In fact, according to the National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK), nearly 70 million Americans are afflicted with digestive problems. Proper digestion is not only important for a healthy digestive tract, but is also key to a properly functioning immune system, maximizing your energy levels, and getting the most out of each meal. Scientists and health professionals now know that probiotics (flora) and enzymes are crucial to supporting proper digestion, improving immunity, and promoting overall health and vitality.

Core Health Product's Digestive Health is a superior product that uses the power of enzymes and a proprietary blend of 13 different species of probiotics, combined with a unique blend of prebiotics, digestive herbs, and other nutrients essential for healthy digestion.

Digestive Enzyme Blend

The Core Health digestive enzyme blend includes high levels of proteases from a proprietary blend specially designed to maximize the utilization of protein, and a concentrated blend of various lipases to maximize the digestion and utilization of fats for energy. This unique blend of enzymes not only supports healthy digestion, but also promotes full utilization of the nutrients in the foods you eat to maximize your energy levels and help you get the most out of each meal.

Probiotic Blend

Probiotics are essential for a healthy digestive system and a strong immune system. The Core Health probiotic blend provides more than 2.5 billion CFU of live, active probiotics from 13 different species. These species are specifically selected according to their known health benefits and are stabilized to ensure maximum viability.

Prebiotic and Herbal Support Blend

The Core Health prebiotic and herbal support blend takes the prebiotic benefits of inulin a step further by combining them with a patented, stabilized form of glutamine (magnesium glycyl glutamine) and the naturally soothing benefits of ginger, peppermint, beet root, and chamomile. This unique combination addresses all aspects of a healthy intestinal tract.

Maximum Enzyme Delivery System (M.E.D.S.)

Every Core Health Product includes our proprietary nutrient delivery system, known as M.E.D.S.™. This proprietary system uses the power of enzymes and fully-utilizable micronutrients to deliver maximum results.

Key Benefits:

- Aids digestion and elimination.
- Soothes and calms the stomach and digestive tract.
- Supports the immune system.
- Increases the utilization of protein and other nutrients for building muscle.
- Increases nutritional values of foods by assuring nutrients from food are absorbed by the body.
- Helps maintain healthy functioning of the intestinal tract.
- Promotes longevity.
- Promotes normal tone in the digestive tract.

Supplement Facts
